welcome to a world of
adhesive tapes

www.gripkingtapes.com

Now You have the Opportunity to Experience
the **Quality** of Products.

Gripking Tapes India Pvt. Ltd. is one of the brightest names in the world of self-adhesive tapes. We began our journey as Super Tapes Industries in 2011 and then scaled up our operations as Gripking Tapes India Pvt. Ltd. in 2018. Backed with rich industry experience of over a decade, the company has emerged as a leading manufacturer of tapes, especially in the industrial tape segment.

Based in Gujarat, the industrial growth engine of India, we manufacture and provide various types of adhesive tapes for diverse applications. Made of different types of materials, our tapes are suitable for usage in packaging, stationery protection, building and construction, automotive and varied industrial purposes.

We always strive to surpass the expectations of our clients and create a long-lasting bond with our clients. Apart from our unflinching focus on the quality of the products time bound deliveries and transparent, ethics-based dealings with our customers have helped us earn laurels.

Manufacturing tailored industrial adhesive solutions for our valued customers is our core competence and we proudly act as their trusted and preferred OEM partner, offering one-stop shopping for all their requirements. We have set up a strong network of distributors and dealers across the country.

We always believe in going beyond business and building strong relationships, based on high values and ethical standards. We are proud of the fact apart from our own work and salesforce, we have been successful in nurturing value-based business practices even in our dealers and distributors.

AN ISO 9001 : 2015 CERTIFIED COMPANY

Let's bond together

for a brighter collective future!

MASKING TAPE

WITH GREAT HOLDING POWER AND RESIST UP TO 80°C TEMPERATURE.

Masking tape is made with saturated crepe paper and coated with 100% natural rubber based pressure sensitive adhesive.

Masking of auto body components during auto painting, sealing of lightweight cartons and small boxes.

Good weather resistance, no residue, good covering and protective ability.

A perfect Product for Carpenters & Painters.

TECHNICAL SPECIFICATIONS

| | |
|----------------------|---------------------|
| Total weight* | 93 g/m ² |
| Total thickness* | 135 µm |
| Tensile strength* | 40 N/cm |
| Elongation at break* | 7 % |
| Adhesion to steel* | 2.8 N/cm |
| Service temperature | 80°C |

*Typical Value

OEM FACILITIES AVAILABLE

DOUBLE SIDE TISSUE TAPE

Made with tissue paper as base material and coating on both side with pressure sensitive adhesive, then make it in rolls with releasing paper.

Excellent performance of temperature. Special formulated adhesive provides strong holding power.

Available with hot-melt or solvent based adhesive.

Used in shoe, leather, stationery, white goods, postal, decoration, labels, paper and lot more industries.

Gripking[®]
Puma[®]
smarSeal[®]
KONING[®]
ARLON[®]

DUCT TAPE

Duct tape with a natural rubber adhesive and water resistant polyethylene backing.
It provides easy tear and good conform ability.
The adhesive has excellent tack and is a great choice for sticking to Metal, Glass, Plastic, sealed concrete and more.

Aggressive natural rubber adhesive.
Designed for heavy duty use in MRO (Maintenance, Repair & Overhaul industry).
Woven cloth scrim allows the tape to tear easily by hand and provides ease of application and handling.
Quick repairs, splicing, fast attachments.
widely used in pipe wrapping, water proofing & heavy packaging.

www.gripkingtapes.com

SELF ADHESIVE BOPP TAPE

It is based on BOPP (Biaxially Oriented Polypropylene) film coated with water based adhesive. BOPP tapes are made from superior quality adhesive, which provides high tack and adhesion strength required for sealing of cartons to make them pilfer proof.

Most economical carton closure system.
Higher tensile strength than any other tape. Printing of customer's logo, adds advertising value at little cost.
Superior acrylic based adhesive.
Scratch proof printing. Multicolour printing.
Uniform adhesion. Very long shelf life.

Forms a firm bond which cannot be removed without destroying film.

Wide range of colors

ALUMINUM FOIL TAPE

For general purpose seaming, patching and sealing.
Highly suitable for sealing off air conditioning and cool/warm and flow ducting.
For sealing joints in ducting providing a flame retardant & vapor-proof barrier.
Excellent adhesion on dry/clean surfaces on metal and other surface.

These foils tapes can be applied for both high temperature / low temperature.

APPLICATION

- HVAC duct wraps, protective masking and electroplating.

P.T.F.E. THREAD SEAL TAPE

PTFE thread seal tape made by extrusion of PTFE Resin.
It is a modern replacement material for all conventional pipe threads.
It can effectively alleviate many of your piping headaches,
while substantially reducing piping cost and maintenance.

PTFE has the lowest coefficient of friction of any known solid material and is extremely non-reactive.

Therefore it is compatible with a very wide range of materials.

Composition : Min. 99% PTFE Tape

Color : White, Yellow, Blue

Thickness : 0.075 mm to 0.2 mm

Density : 0.2g/cm³ to 0.5g/cm³ Temp.

Range : -286°C – +316°C

FLOOR MARKING TAPE

Floor marking tapes are being widely used now a day for safety, identifying lane marking for storage segmentation, ideal for ISO 9001, QS 9000 companies, good resistance to chemical and other moving objects. Better than paints.

Floor marking tape also known as public security tape, warning tape, Zebra crossing tape, widely used in warning sign of objects.

It is used in decorative stickers, floor (wall) regional division, electrostatic sensitive products, anti-static area logo, sealing warning, product package warnings and so on.

www.gripkingtapes.com

PE FOAM TAPE

Polyethylene (PE) foam is coated with high tack adhesive on both sides. Widely used in automotive and electronics industries and for home decor. PE foam tape is a good replacement for rivets, screws and welds as well as featured with durable bond and immediate handling strength.

INDOOR AND OUTDOOR SUITABLE

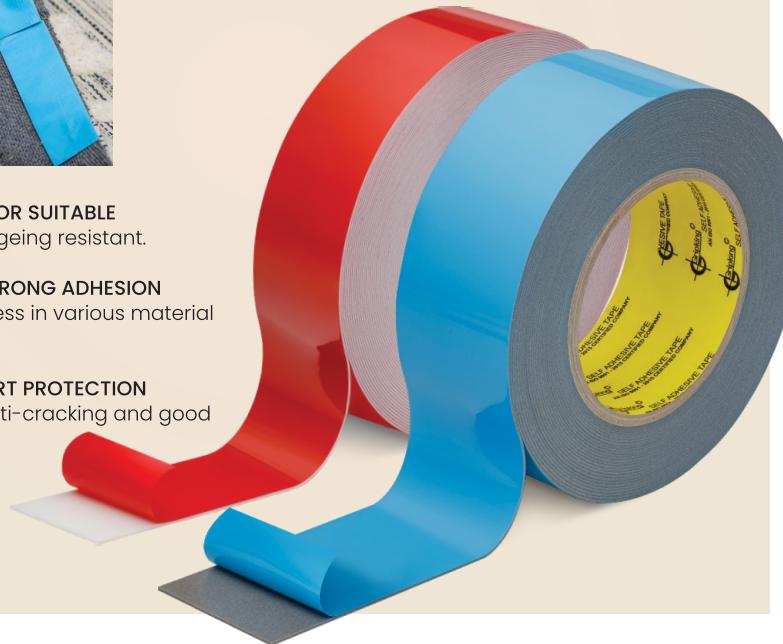

Anti-UV ability and ageing resistant.

EXTRAORDINARILY STRONG ADHESION

Easy and quick process in various material surfaces.

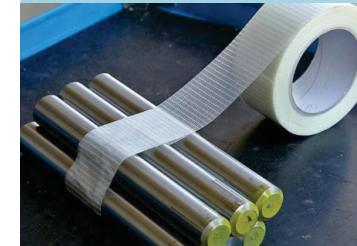

EXCELLENT TRANSPORT PROTECTION

Shock absorption, anti-cracking and good sealing.

CROSS FILAMENT TAPE

A self adhesive tape which has been specially designed for applications requiring a high breaking strength. This tape has a film backing and rubber adhesive. Woven fiberglass reinforced the backing, making this product extremely strong when used for heavy packing, pallet fastening and general reinforcement in industrial sector.

APPLICATION

- For packing the heavy weight cartons.
- Also used in pelletizing, strapping, sealing of metal coils, pipe bundling and for cross web slicing.

DOUBLE SIDE ACRYLIC TAPE

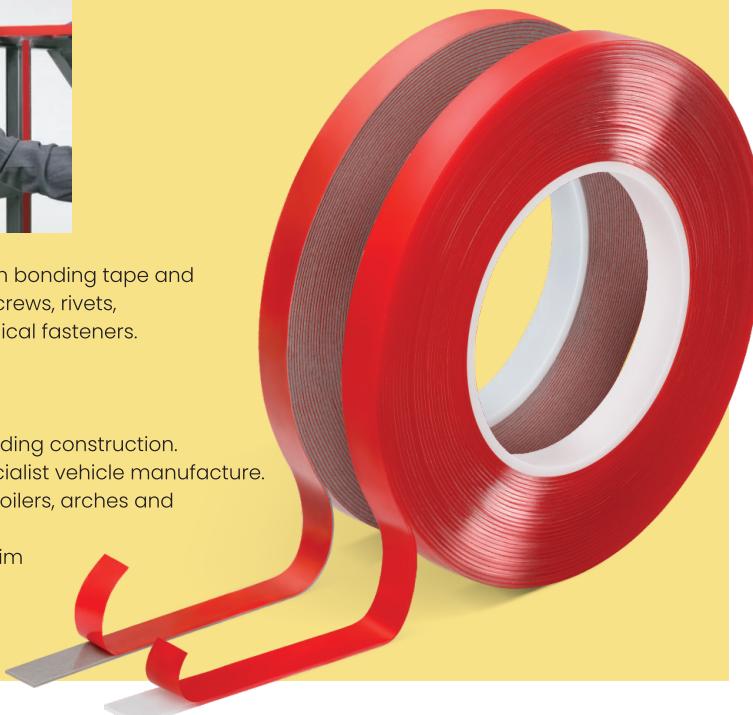

Unlike screws or rivets which join materials at a single point high-strength bonding tape permanently adheres one substrate to another while spreading the stress load across the entire length of the joint. Once materials are joined with VHB Tape a virtually indestructible "weld" is created.

VHB Tape is high-strength bonding tape and a proven alternative to screws, rivets, welds and other mechanical fasteners.

APPLICATION

- Sign channel fixing tape.
- Structural bonding in building construction.
- Box trailer and other specialist vehicle manufacture. Attachment of vehicle spoilers, arches and other decorative trim.
- Vehicle panels, exterior trim and badge mounting.

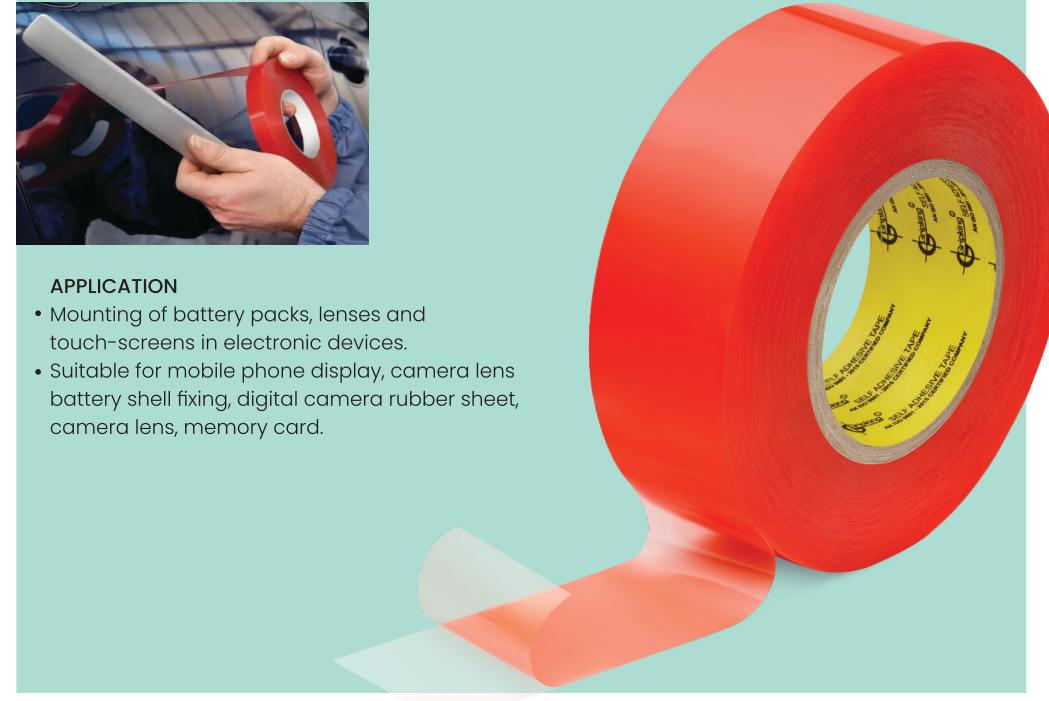

RED POLYESTER

Self-adhesive tape consisting of a pet backing and a modified acrylic adhesive with transparent salmon pink colour pe liner. Excellent resistance to demanding environmental. High bond tape is suited to outdoor use. It is suitable for all temperatures. This tape leaving an invisible bondline when applied, it is ideal for glass surfaces leaving an almost transparent finish.

APPLICATION

- Mounting of battery packs, lenses and touch-screens in electronic devices.
- Suitable for mobile phone display, camera lens battery shell fixing, digital camera rubber sheet, camera lens, memory card.

DOUBLE SIDED FOAM TAPE

Use for sealing, bonding, cushioning, protection from dust and mounting purpose. Protects from water, moisture and dust coated with variety of adhesives. Easy and quick to apply on different clean surfaces. Great bonding strength with high adhesion and also heat resistance products available.

Permanent fixing of spare parts in refrigerator, other electronic goods and automotive industry.

SINGLE SIDED FOAM TAPE

A Black, single sided elastomeric closed cell tape. Designed to efficiently insulate sheet metal panels & pipes in commercial & industrial applications (HVAC equipment & systems). It acts as a seal gasket between sheet metal swell as cushion against vibration & shock, deaden sound, and is easily compressed & conformed.

Reduces vibration & blocks noise.
Indoor Air/Airstream friendly Insulation-Fiber free,
formaldehyde free.

APPLICATION

- Used as HVAC equipment panels, fiber free insulation alternative, metal to metal seals, gaskets/gap filler and wrapping chilled water lines.

AVAILABLE IN

- Thickness i.e. 3mm and 5mm.

www.gripkingtapes.com

CRAFT PAPER TAPE

Craft paper tape made with hot melt adhesive and designed for very high tensile strength and good adhesion. This tape is easy to use and can be torn by hand. Its brown paper backing is shock resistant and provides good elongation properties for effective sealing applications.

FEATURES

- Environment-friendly.
- Excellent adhesion.
- Can be recycled.

APPLICATION

- Recommended for heavy boxes, bundling and packaging applications.
